PROJECTS

NutriMate — Front End Website (React.js)

- Used React-Router-Dom to create routes for pages within the app.
- Used Material UI and React-bootstrap to create the User Interface.
- Set up a link with Spoonacular API to retrieve recipe information.
- Pair Programmed with 3 engineers and reviewed the team's code to provide additional perspective and catch previously missed errors.
- Worked in an agile environment with daily stand-ups.

BookingSystem — Full Stack Website (Next.js & Django/Spring Boot)

- Website for ships to book harbor clearance timing and berths when they enter and exit base.
- Used Next.js 13 for Front End.
- Used Material UI and Bulma to create the User Interface.
- Set up 2 Back End Servers using Django and Spring Boot.
- Solo Project for my previous workplace in the Navy.

EXPERIENCE

Republic Of Singapore Navy — Naval Officer MAY 2020 - PRESENT

- 2nd in command of the seawards company in charge of seawards defense and deterrence.
- Created Full Stack Web App for Harbour Clearance and berth booking for Changi Naval Base.
- Project Head for multi channel network implementation servicewide.
- Led team for rescue operations with foreign counterparts.
- Supervising officer for various operations and exercise conducts.

Thurlestone Shipping — Ship Broker and Operations Executive (Internship) MAY 2019 - AUG 2019

- Assisted in operations management for Dry and Liquid Bulk Cargo
- Worked with shipping clients to calculate laytime and demurrage.

EDUCATION

NANYANG TECHNOLOGICAL UNIVERSITY Feb 2023 - Aug 2023
SkillsFuture Career Transition Programme, Software Engineering
